## EVALUATION OF SCHOOL BOARD OPERATIONAL PROCEDURES

Boards of education expect a high level of performance from those who are employed to run the schools. School patrons and other taxpayers also expect a high level of performance from those who are elected to govern the schools.

Ultimately, the performance of an individual Board member is measured at election time. However, that is not enough. Each Board should set aside some time on a regular basis to compare individual assessments of how well the governing body is functioning. The instrument or scoring system is not important. What is important is for the Board to establish a plan to regularly analyze its method of operation. The results of evaluation should be used in setting goals for improved operations in the future.
